## Summary

---

I am a results-oriented individual with a passion for continuous learning and innovation, known for leveraging analytical thinking and creativity to solve problems and deliver high-impact solutions in fast-paced environments. Also a motivated student eager to apply classroom knowledge to real-world experiences, with a strong willingness to learn and contribute.

## Experience

---

### University Of Ghana Computing Systems. | Legon

#### Networking Intern | 01/2024 - 03/2024

- Collaborated with other IT professionals to identify system needs and implement comprehensive solutions.
- Configured and installed network hardware including routers, switches, and firewalls to enhance security and performance.
- Replaced faulty or damaged network hardware components to improve performance.
- Corrected network faults and malfunctions to restore connectivity to individual users and entire facilities.
- Completed day-to-day duties accurately and efficiently.
- Worked with cross-functional teams to achieve goals.

### NAVANTRICS LTD | kaso

#### Front-End Intern | 08/2023 - 10/2023

- I actively participated in web application and development projects. I was mentored by the senior I.T staff who introduced me to the open tasks in the real world.
- Designed and implemented interactive user interfaces for websites and applications.
- Developed user-facing webpages using React, Tailwind, JavaScript.
- Translated concepts into user flows, wireframes, and prototypes to promote positive, intuitive designs, site interactions, and user experiences.
- Worked with cross-functional teams to achieve goals.
- Identified needs of customers promptly and efficiently.
- I gained valuable hands-on experience in Web development, involving tasks such as Web design, coding, and quality assurance. I learned about Figma, where I used it to design my work to see the finished product before I started development.
- My role included engaging with clients, understanding their requirements, presenting project updates, and collecting feedback to ensure their complete satisfaction.
- Working closely with the Navantrics team enhanced my ability to collaborate effectively within a team-based environment.

## Skills

---

UX and UI design, Git version control, Networking, Software Development, Web Development

## Education

---
